Re: Cochran residence
31 Conant Street
DEP 85-371

Dear Commission Members:

This letter is to certify that to the best of our knowledge, information and belief, and based on visual observations made on August 13, 2007 the proposed site construction at 31 Conant Street has been completed in accordance with the requirements of the Order of Conditions.

Slopes were observed to be erosion resistant. The wetland replication area was observed to be forested and grass. Natural vegetation has returned to the area along side the driveway. The Order of Conditions specified the shoulders and slope of the driveway to naturalize. They were observed to be grass and in an erosion resistant state.

A copy of WPA Form 8A is enclosed.

Please call if you have any concerns, or if additional information should be required.

Very truly yours,
Mark T. Donohoe, PE
